MOTION FOR LEAVE TO FILE AMICUS
CURIAE BRIEF IN SUPPORT OF THE
PETITIONS FOR WRITS OF CERTIORARI

The California District Attorneys Association, pursuant to Rule 42, of the Supreme Court Rules, respectfully petition this Honorable Court for leave to file the accompanying Amicus Curiae brief in support of Petitioners' petitions for Writ of Certiorari in the cases of Rath vs. Becker, ____F.2d____(1975) (Nos. 73-2481, 73-2482, 73-3902, 73-2496, 73-3180) (Hereafter, Rath), and General Mills, et al. vs. Jones, ____F.2d____(1975)(Nos. 74-1051, 73-3583) (Hereafter, General Mills).

The Amicus brief will be filed by the Appellate Committee of the Association. The Committee was created by the district attorneys of the several counties of California to utilize and coordinate the

resources of the district attorney's offices throughout the State for the purpose of presenting their views in cases which may have major impact upon their functions and the performance of their duties in their quest to protect the citizens of their respective counties.

After reviewing the matter presented herein, the Appellate Committee concluded that the cases of Rath and General Mills will have a major impact upon the ability of the State of California to enforce short-weight regulations and to protect the California consumer from fraudulent practices.^{1/} Rath and General Mills held that federal law

^{1/} The district attorney in California is charged with the enforcement of the various laws in the field of consumer protection. Any district attorney may bring an action for injunctive relief against persons who engage in unfair competition which includes unfair or fraudu-

preempted California Business and Professions Code §12211 and the procedures used by California in the enforcement of Bus. & Prof. Code § 12607 both of which sections were or would have been utilized by the several district attorneys in bringing actions against Rath and General Mills, et al.

Because of the concern of the California district attorneys about the impact of Rath and General Mills upon the continued viability of these stricken provisions, the California District Attorneys Association authorized its

lent business practice and unfair deceptive, untrue or misleading advertising (California Civil Code §3369); to prevent violations of California's Bus. & Prof. Code §§17500 et seq. which concern false advertising (Bus. & Prof. Code §17535); for recovery of civil penalties in cases of false advertising (Bus. & Prof. Code §17536); to bring an action for civil damages and injunctive relief to restrain violations of the Sherman Food, Drug, and Cosmetic Law (California Health and Safety Code §§2600 et seq.)

Appellate Committee to seek permission to file the instant amicus brief.

The Amicus Curiae Brief will show the extensiveness of California's involvement in this area of consumer protection and the significance of Rath and General Mills to the enforcement of local regulations of weights and measures. California Department of Agriculture tables are attached as an appendix to the Brief showing the various results of weight inspection in different types of food products, and the amounts rejected as short-weighted. Amicus will

Furthermore, Bus. & Prof. Code §12024 provides that every person who sells any commodity in less quantity than he represents it to be is guilty of a misdemeanor, and since the district attorney "shall attend the courts, and conduct on behalf of the people all prosecution for public offenses", Cali-

(See attached brief, pp. 33-40.)

For the reasons set forth above the California District Attorneys Association request that it be granted leave to file

JURISDICTIONAL GROUND

The California District Attorneys
Association as amicus curiae, respect-
fully files this brief pursuant to Rule
42, of the Supreme Court Rules.

SUMMARY OF ARGUMENT

The questions presented by Rath and General Mills are significant because of the great extent that the State of California is involved in protecting its consuming public. The matter of whether State officials can order short-weighted food products off-sale has been presented to different Circuits resulting in different decisions. These reasons warrant a Writ of Certiorari.

In addition, an analysis of the opinions of the Court of Appeals, although persuasive at first glance, does not withstand analytical scrutiny. The matters regulated here involve items which are no longer in interstate commerce and there was no intent to preempt same. In fact, careful analysis of the applicable legislation indicates

a clear Congressional intent to join with the States in protecting the consuming public.

STATEMENT OF THE CASE

Actions were filed in Los Angeles and Riverside counties of the State of California against Rath Packing Company (hereafter Rath) for civil penalties and injunctive relief, charging Rath with the continued sale of short-weighted packages of bacon. It was alleged that the net weight contents of packages of bacon which were processed, packaged, labeled, sold, and distributed by Rath were, when offered for retail sale to the consuming public, frequently found to weigh less than the net weight stated thereon, thus causing consumers to be deceived and misled by sale of such "misbranded" food. At one time, while less than 2% of the packages of various brands of bacon inspected by county inspectors were found to weigh less than the amount stated on the face of the

packages, in the case of bacon packaged by Rath, approximately 50% of the samples were found to be short-weighted. The difference between the net weight stated on the labels and the actual net weight of the contents of the packages of Rath bacon when offered for retail sale to the consuming public were found to range from 1/16 ounce to 1 $\frac{1}{4}$ ounces. (People's brief in the case of People vs. Rath, page 4)2/.

Local county officials had conducted their inspections in accordance with the procedures set forth in 4 California Administrative Code Chapter 8, subchapter 2, article 5, which were promulgated by the California Director

2/ People vs. Rath, California Court of Appeal, Second District, 2d Civ. No. 42367 - Clerk's trans. p. 100, line 1-5, p. 538, line 17 to p. 539, line 24.

of Agriculture pursuant to his authority under California's Business and Professions Code § 12211.

The General Mills case involves the packaging and weighing of flour sold to consumers for home use. General Mills, et al. manufacture, package, label, and distribute wheat flours.

The State of California has been extensively active in the inspection of short-weighted consumer products (Appendix) and has for years protected the California consuming public.

Local inspectors of the several California counties have performed their inspections and done so within the full knowledge of the federal compliance

officers^{3/}, the latter for the most part, relying upon the local inspectors for the day-to-day monitoring of such consumer products. (Rep. Tr. pp. 371-76, 383-84).

Rath filed an action in the U.S. District Court, Central District, California, seeking to enjoin directors of county department of weights and measures from applying provisions of the California law (Bus. & Prof. Code § 12211 and its implementation in the Cal. Admin. Code) on, among other things, the ground that such State law is preempted by provisions of the Federal Wholesome Meat Inspection Act (WMA) (21 USC, §§

^{3/} Vinton L. Hutchings, Officer-in-Charge, Western Region, USDA Compliance staff, supervises seven USDA compliance officers for the twelve western states (including Alaska and Hawaii) (Rep. Tr. pp. 371-76).

601 et seq.) The District Court agreed with Rath. Rath Packing Company vs. Becker, 357 Fed. Supp. 529 (1973).

General Mills and other Millers filed an action in the same District Court seeking relief similar to that of Rath, claiming that California law (Bus. & Prof. Code §§ 12211 and 12607, Cal. Admin. Code Ch. 8, subch. 2) was preempted by the Provisions of the Federal Food, Drug and Cosmetic Act (FDCA) (21 USC, §§ 301 et seq.). The District Court again agreed with the Plaintiffs General Mills, et al. vs. Jones, Civil Action No. 73-715-R (1973) (Memorandum Opinion.^{4/}

Both Rath and General Mills were appealed to the U.S. Court of Appeals,

^{4/} Said Opinion is attached to the decision of the 9th Circ. U.S. Court of Appeals (No. 74-1051) as an appendix thereto.

Ninth Circuit, and on October 29, 1975, said court rendered its decision in these cases. (Nos. 73-2481, 73-2482, 73-3092, 73-2496, 73-3180, 73-3583, 74-1051) holding inter alia that (a) The Wholesome Meat Act of 1967 (21 USC, §§ 601 et seq., and 9 CFR, 317.2 (h)(2) preempt California Bus. & Prof. Code § 12211 and 4 Cal. Admin. Code Ch. 8, subch. 2, art. 5, 5.1 and partially preempt California Bus. & Prof. Code § 12607. And, (b) The Food, Drug, and Cosmetic Act, the Fair Packaging and Labeling Act, and 21 CFR, 1.86(q) preempt Bus. & Prof. Code §12211 and 4 Cal. Admin. Code Ch. 8, subch. 2, 2.1.

ARGUMENT

I

CERTIORARI IS APPROPRIATEWHERE THE QUESTIONSRAISED ARE SIGNIFICANT

Certiorari is appropriate where a particular question is important and recurring. Glus vs. Brooklyn Eastern District Terminal, 359 U.S. 231 (1959). The significance and importance of the area of the law concerning the protection of the consumer is reflected in the statutory scheme and the legislative history of the various provisions of law that regulate meat and flour products. For example, the Federal Wholesome Meat Act of 1967 contains the finding that:

"...Unwholesome, adulterated, or misbranded meat or meat food products impair the effective regulation of meat and meat

food products in interstate or foreign commerce, are injurious to the public welfare, destroy markets for wholesome, not adulterated, and properly labeled and packaged meat and meat food products, and result in sundry losses to livestock producers of meat and meat food products, as well as injury to consumers."

21 USC, §602.

Such a statement of purpose would likewise apply to flour products and other consumer products. The growing field of regulation of such products and the enforcement of consumer protection laws through law enforcement agencies and consumer protection bureaus attest the significance of and inherent probability of the recurrence of the ques-

tions raised by the Rath and General Mills cases. The U.S. District Court in Rath vs. Becker, 357 Fed. Supp. at page 534 held that 9 CFR, 317.2 (h)(2) which is the purported implementation of 21 USC, §601(n)(5) was "void for its inadequacy to set any recognizable standards***." The Court of Appeals reversed this ruling but observed:

"We note the public importance of this question, and the possibility of review of our judgment herein". ____F.

2d ___, (Slip opinion, page 19).

The Court of Appeals in fact stated that it attempted to "make it clear that by this (General Mills) decision (we) do not deprive California of its unquestioned right to exercise its police powers in the regulation of weights and measures so as to prevent the sale to consumer of

packaged flour and other foods which do not weigh what their labels say they do."

____F. 2d ____ (Slip opinion, p. 50). But, the Court proceeded to do precisely what it said it did not attempt to do, that is, strike down California's exercise of its police powers.

These rulings are significant for the following reasons: a) The dual ruling in Rath that 9 CFR, 317.2 (h)(2) is not "impossible of application" and that the particular California laws and regulations are invalid leaves the hundreds^{5/} of California inspectors of weights and measures with no guidelines other than the words "reasonable varia-

^{5/} As of this writing, there are 404 certified county inspectors and 67 state certified inspectors in California (Information obtained from the State of California Department of Weights and Measures.

tions". The issue will hardly lie dormant. Each such inspector will have to determine what in his opinion is a "reasonable variation" and the doors will be opened for gross inequality in the enforcement of short-weight laws and the protection of consumers in various parts of the state. b) The Court's ruling in General Mills (Slip opinion, page 48) is puzzling. The Court stated that "The federal law requires 'accurate' weight, proscribing packages that are overweight as well as underweight" and thus California law is invalid because the latter "only proscribes sale of lots of packages whose average actual weights are less than the label weights." Aside from the Court's strange worry about the sale of overweight products to consumers, it apparently failed to grasp the significance of what it was

saying, that is, in order to conform to FPLA, a valid California regulation must proscribe any package which weighs more or less than the "accurate" weight. Thus, in its analysis of the FPLA, the court completely ignored its conflicting and contrary analysis of the FDCA and the WMA (see General Mills, p. 47) which took into consideration "reasonable variations" that inevitably occur when packages, due to various causes, including loss of moisture, do not reflect "accurate" weights.

Amicus respectfully suggests that the decisions in Rath and General Mills create significant issues and are of sufficient importance to warrant a hearing before the United States Supreme Court.

ARGUMENT

II

CERTIORARI IS APPROPRIATE
WHERE A CONFLICT EXISTS
BETWEEN CIRCUITS

Where a question of particular significance has been raised in various parts of this country and conflicting decisions have been rendered by different courts of appeals, certiorari would lie to resolve the conflict.

F.T.C. vs. Flotill Products, Inc., 389 U.S. 179 (1967); N.L.R.B. vs. Metropolitan Life, 380 U.S. 438 (1965); Charles Dowd Box Co. vs. Courtney, 368 U.S. 502 (1962); Jarecki vs. G. D. Searle & Co., 367 U.S. 303 (1961); Knetsch vs. U.S., 364 U.S. 361 (1960); Mitchell vs. Robert DeMario Jewelry, Inc., 361 U.S. 288 (1960) In General Mills, Inc., et al.,

vs. Furness, 398 Fed. Supp. 151 (1974), Plaintiffs brought action seeking injunctive and declaratory relief in an effort to invalidate the New York City weights and measures ordinance. The trial court held that the city had wide discretion in determining what variations from stated weights were reasonable, and even though it appeared that the city ordinance was substantially more stringent than the applicable federal statute, as applied, the Plaintiffs' claim that the ordinance was preempted by the Federal Fair Packaging and Labeling Act,^{6/} was not sustained. The Court of Appeals, Second Circuit, affirmed the judgment. 508 F. 2d 836. Also,

^{6/} 15 USC §1451 et seq., and the Food, Drug and Cosmetic Act, 21 USC, §301 et seq.

where the questions raised are of importance to federal-state relations, certiorari would be granted. Leiter Minerals, Inc., vs. U.S., 352 U.S. 200 (1957). In the enforcement of the California statutes and regulations involved here, there has been cooperation and mutual reliance between federal compliance officers and the local weights and measures officials, the latter performing most of the day-to-day inspections of, among other things, the products involved in Rath and General Mills. (See testimony of V. L. Hutchings, reproduced at pages 79-82 of L. T. Wallace's Petition for a Writ of Certiorari. The testimony of this Federal Compliance Officer shows that when it comes to regulation of local weights and measures, these officers defer to the local officials

of weights and measures because they are unable and/or unwilling to assume such duties.^{7/}

This cooperative effort to protect the consumer apparently enjoys congressional sanction since the concluding portion of 21 USC, §678 reads:

"***but any State*** may, consistent with the requirements under this chapter, exercise concurrent jurisdiction with the Secretary over articles required to be inspected under said subch. I, for the purpose of preventing the distribution for human food purposes

^{7/} In fact, as set forth in Argument infra, it is doubtful if local enforcement even is within the proper jurisdiction of federal compliance officers.

of any such articles which are adulterated or misbranded and are outside of such an establishment***.

This chapter shall not preclude any State***from making requirement or taking other action, consistent with this chapter with respect to any other matters regulated under this chapter."

In addition, as set forth in footnote of L. T. Wallace's Petition for Writ of Certiorari in the Rath case, at least thirteen states in the union support the granting of certiorari and by so doing these states are also involved in and fully committed to the protection of the consuming public in their various jurisdictions in coopera-

tion with federal authorities. Amicus respectfully suggests that a Writ of Certiorari would be appropriate under these circumstances because there are conflicting opinions in this area which affect federal-State and State-State relations and a resolution of the questions raised is necessary.

ARGUMENT
 III
ERRONEOUS DECISIONS
INVOLVING SIGNIFICANT
ISSUES SHOULD NOT BE
ALLOWED TO STAND

A

THE STATE OF CALIFORNIA
HAS NONCONFLICTING AND
CONCURRENT JURISDICTION
IN THE AREA OF PACKAGING
AND SALE OF
CONSUMER PRODUCTS

In holding that the applicable California statutes and regulations are preempted by federal law, the trial court and the Court of Appeals ruled that the statistical variations allowed by California from the accurate weight standard imposed by 21 USC §601(n)(5), in the absence of valid

regulations permitting reasonable variations thereunder, created a net weight labeling standard "different than" the federal standard.

California Bus. & Prof. Code §12211, in part, provides that "Each sealer shall, from time to time, weigh or measure packages, containers or amounts of commodities sold, or in the process of delivery, in order to determine whether the same contain the quantity or amount represented and whether they are being sold in accordance with law. The director is hereby authorized and directed to adopt and promulgate necessary rules and regulations***. Any such rule or regulation***shall not require higher standards and shall not be more restrictive than regulations, if any, promulgated by the Department of

Health, Education and Welfare, Food and Drug Administration, under the provisions of the Federal Food, Drug and Cosmetic Act." (Emphasis added.)

California Health and Safety Code §26551 refers to labeling requirements of packaged food and reads in part:

"Any food is misbranded if

it is in package form,

unless it bears a label

containing all of the following information:

"... (b) An accurate statement of the quantity of the contents in terms of weight, measure or numerical count.

"Reasonable variations from the requirements of subdivision (b) shall be permitted." (Emphasis added.)

California Bus. & Prof. Code

§12211, stricken by the Court of Appeals, must be taken in pari materia with Health & Safety Code §26551, and must be interpreted in light of its reference to the requirement that the packaging and labeling be done "in accordance with law" and its reference to the FDCA. California's Director of Agriculture had promulgated in the California Administrative Code procedures which were stricken by the Court of Appeals, which procedures were being used as a tool for inspectors of weights and measures to implement the consumer protection laws. Such regulations were obviously subject to any other provision of law, whether State or federal, including allowance for "reasonable variations."

There was no conflict between

B

THE STATE IS FREE TO
REGULATE PRODUCTS WHICH
NO LONGER ARE IN
INTERSTATE COMMERCE

The Court of Appeals made much ado of 21 USC, §678, which, at first glance, would seem to prohibit the enactment of requirements by a State which are "in addition to, or different than those made under this act," and "marking, labeling, packaging, or ingredient requirements in addition to, or different than, those made under this act."

The above language of 21 USC, §678, applies "with respect to premises, facilities and operations of any establishment at which inspection is provided under subch. I." Subch. I includes 21 USC, §§201-624.

the federal law and the State statute and regulations.

This rationale would apply to the General Mills case as well as to the Rath case.

First, in enacting the WMA, Congress was concerned about "effective regulation of meat and meat products in interstate or foreign commerce,*** and (that) regulation by the Secretary and cooperation by the States and other jurisdictions as contemplated by the Act (are) appropriate to prevent and eliminate burdens upon such commerce, to effectively regulate such commerce, and to protect the health and welfare of consumers." 21 USC, §602. (Emphasis added.)

21 USC, §603, reads in part:
For the purpose of preventing the use in commerce of meat and meat food products which are adulterated, the Secretary shall cause to be made,*** an examination and inspection of all cattle***before they shall be allowed to enter into slaughtering, packing,

meat-canning, rendering, or similar establishment in which they are to be slaughtered.***" (Emphasis added.)

21 USC, §606 provides that "*** the Secretary shall cause to be made, by inspectors appointed for that purpose, an examination and inspection of all meat food products prepared for commerce in any slaughtering, meat-canning, salting, packing, rendering, or similar establishments,***" (Emphasis added.)

21 USC, §607(d) provides that "No article subject to this title (21 USC, §§601-624) shall be sold or offered for sale by any person, firm, or corporation, in commerce, under any name or other marking or labeling which is false or misleading,***" (Emphasis added.) The qualification that the meat or products be in "commerce"

is repeated in 21 USC, §§608, 609, 610, 619 and 624.

"Commerce" is defined in 21 USC, §601(h), as follows: "The term 'commerce' means commerce between any State, any Territory, or the District of Columbia, and any place outside thereof, or within any Territory not organized with a legislative body, or the District of Columbia."

The conclusion is obvious. The prohibitive language of USC, §678, relied upon by the Court of Appeals in Rath simply does not apply to items which are no longer "in commerce," i.e., those that have left commerce and are awaiting intrastate sale to a vulnerable consumer.

In fact Congress contemplated State activity in this area since in 21 USC, §607, the Secretary of Agri-

culture is mandated to consult with states:

"There shall also be consultation between the Secretary and an appropriate advisory committee provided for in §301 of this Act (21 USC, §661), prior to the issuance of such standards under this Act***, to avoid, insofar as feasible, inconsistency between federal and State standards." 21 USC, §607(c). (Emphasis added.)

21 USC, §661, further reflects the congressional view of the authority of a State:

"(a) It is the policy of the Congress to protect the consuming public from meat and meat food products

that are adulterated or misbranded and to assist in efforts by State and other government agencies to accomplish this objective."

Moreover, 21 USC, §661, specifically makes reference to the development by a State of requirements at least equal to those imposed under 21 USC, §§601-624, 671-680, and excludes the Secretary from interference unless such regulations have failed to be developed or enforced by a State. 21 USC, §661(c). The Secretary is otherwise authorized to cooperate with appropriate State agencies in developing and administering State programs under State laws containing authorities at least equal to those provided in (21 USC, §§641-645). 21 USC, §661(a)(2). Small wonder that V. L. Hutchings, USDA Regional

Compliance Officer, testified in the trial court that "we do not normally make a review in the retail stores," and "The government agency (such as County Department of Weights and Measures) which was doing the testing would advise us of (that) difference in weight." (See pages 78, 81 of Petitioner Wallace's brief for Writ of Certiorari in the Rath case.)

The Court of Appeals, in both Rath and General Mills, recognized that the State has the unquestioned right to exercise its police powers in regulation of weights and measures. (General Mills, Slip opinion, pp. 41, 50), and that California is free to enact "other" statutes and regulations which do not offend §678 (21 USC). (Rath, Slip opinion p. 29). What the Court of Appeals failed to recognize

was that the police power of the state, historically and presently recognized, Swift & Co. vs. Wickham, 230 Fed. Supp. 398, 402-403, appeal dismissed, 382 U.S. 111 (1965); Savage vs. Jones, 225 U.S. 501 (1912); Sligh vs. Kirkwood, 237 U.S. 52 (1915) was not infringed upon by the Congressional enactments of the WMA, FDCA and FPLA because such acts apply to goods and products in interstate commerce and not to goods and products upon which the State exercises primary jurisdiction.^{8/}

Both federal and State governments have a role here. Federal regulations would be applicable where a main plant is producing commodities which will

^{8/} See H. P. Hood & Sons vs. DuMond, 336 U.S. 525 (1948).

enter interstate commerce^{9/} and State regulations where such commodities come to rest in the supermarkets and grocery shops of the localities in the various States and assume a "local" nature. (See, e.g., Parker vs. Brown, 317 U.S. 341, 360 (1943).) At this point the interests of the State become paramount and the need to protect the particular public becomes urgent.

^{9/} See Michelin Tire Corp. vs. Wages, U.S. (No. 74-1396) (1975), where taxing by State of goods no longer in import transit was upheld by this Supreme Court.

C

UNCONSTITUTIONAL ACTS OF
CONGRESS WHICH INFRINGE
UPON THE RIGHTS OF THE
STATES ARE REVIEWABLE
BY THIS COURT

If, in the face of State legislation which protects the local consumer, the federal laws in this area are held to be preemptive, then there exists a serious question of Congressional violation of the Tenth Amendment to the U.S. Constitution which reserves to the States the powers not delegated to the United States. Thus, if, as the Court of Appeals held, and notwithstanding the above argument of Amicus, Congress has enacted provisions which violate the U.S. Constitution, then, of course, such provisions would be subject to review by this Supreme Court.

McCulloch vs. Maryland, 4 Wheat. (17 U.S.) 316 (1819). One hundred and thirty-six years ago, this Supreme Court chose to plant itself on what it considered these "impregnable positions": "That a State has the same undeniable and unlimited jurisdiction over all persons and things within its territorial limits, as any foreign nation, where that jurisdiction is not surrendered or restrained by the Constitution of the United States. That by virtue of this, it is not only the right, but the obligation and solemn duty of a State, to advance the safety, happiness and prosperity of its people, and to provide for its general welfare, by any and every act of legislation which it may deem conducive to these ends; where the power over the particular subject, or the manner of its exercise is not

surrendered or restrained, in the manner just stated. That all these powers which relate merely to municipal legislation or what may, perhaps, more properly called internal police, are not thus surrendered or restrained; and that, consequently, in relation to these, the authority of a State is complete, unqualified and exclusive."

New York vs. Miln, 36 U.S. 102, 139, (1837). (See also Huron Portland Cement Co. vs. Detroit, 362 U.S. 440 (1960), Kelly vs. Washington, 302 U.S. 1 (1937).

The State of California has been active in protecting its consumers in order to assure that such consumers receive the full value of their dollars in goods and products bought by California retailers. The Appendix attached to this brief, based upon the official

records of the California Department of Weights and Measures, typifies such effort. Seventeen (17) classifications are listed for various commodities that are monitored by the California Bureau of Weights and Measures. Examination of the percentages of packages rejected as short-weighted indicates how extensively does California protect its consuming public. Of particular significance in the compilation are the percentages of rejection in items which have very little or no loss due to moisture. For example, the category of chicken, fresh and frozen, (Appendix, p. 77) shows that between 13.43% to 44.85% of those items inspected between the dates of July of 1972, to September of 1975 were rejected as short-weighted. These are the short-weighted amounts which would have been sold to unsuspecting consumers. A

similar conclusion may be drawn from Appendix, pp. 6,14,22,30,38,56,54,62 and 70 by examining Code 4.04 (canned meat) which would have no loss due to moisture. The rejections in this category between September 1974, to September, 1975, range from 0% to 39.40%. In other words, in the absence of day-to-day State and local regulation, those percentages would be translated to a loss for the consumer.^{10/}

^{10/} e.g. In Sacramento County alone, there are presently pending three such consumer fraud cases: People vs. Armour & Co. Inc., (Superior Court No. 252343), People vs. Galileo-Capri Salame, (Superior Court No. 251855), and People vs. Gallo Salami, (Superior Court No. 251856.) In addition, records of the Sacramento County Director of the Agricultural Commission and Sealer of Weights and Measures, W. Leland Brown, indicates that 474 off-sale orders were issued in the County of Sacramento, between the dates of January of 1975 and December 31, 1975, on various products.

Amicus respectfully suggests that California's efforts to extend to its consuming public the protections heretofore accorded should not be so easily and readily thwarted.

CONCLUSION

On the basis of the aforementioned reasons, Amicus respectfully prays this Court grant the Petition for Writ of Certiorari to review the judgment and orders of the Court of Appeals of the Ninth Circuit.

Respectfully submitted on behalf of the California District Attorneys Association,

JOHN M. PRICE
District Attorney
County of Sacramento

APPENDIX

The attached pages 1 through 77 represent the official compilation by the California Department of Weights and Measures of statistics obtained from each local county department of weights and measures. Thus, the information contained herein represents the activities of local inspectors and the results of such inspection of various commodities from September, 1974, through September, 1975. The last page (77) taken from the same statistics over a longer period of time, is a summary for one item to show the substantial percentage of sub-standard chicken which was rejected throughout the State.
